Neighborhoods for All Ages: A Civic Works & Coldstream-Homestead-Montebello Community Corporation Project

Home Repair

Improving homes means improving quality of life for the community's older adults and the entire neighborhood. That is why Neighborhoods for All Ages (NAA) offers home repair services to qualifying seniors.

Home Safety Modifications

Accidents at home remain a top cause of injury and death in the United States. As part of the service, NAA can assess home safety risks, address fall hazards, install needed rails and help improve lighting conditions.

Transportation

NAA strives to meet the transportation needs of seniors by coordinating shuttles to grocery stores, doctor appointments and community activities. In addition, door-to-door transportation may be arranged on an as-needed basis.

Community Outreach, Education and Activities

NAA offers a host of engaging and entertaining activities for older adults. In addition, workshops can be offered in a variety of topics related to healthy aging. Seniors, worship centers and other community groups are encouraged to contact the program for more information.

Energy Efficiency

Rising energy costs can place a financial strain on us all. Participating older adults may wish to take advantage of energy-saving light bulbs, water saving faucets, cool roof coatings and more.

Community Connection

Nonprofit organizations, state and local government and many other groups offer services and benefits to older adults. However, finding and applying for help is not always simple. NAA offers assistance in linking seniors with these services.
